FLACOblue IBC | Basic | with filling nozzle ZV10.2A

- **calibrated only version AdBlue-filling system**
- **Made of powder-coated galvanized steel designed to hang a 1000 litre IBC**
- **Without IBC**

Technical data

Nozzle	Quad sensor-controlled automatic filling nozzle FLACO ZV10.2A
Dimensions	540 x 600 x 320 mm (B x W x T)
Weight	approx. 22 kg
Connector	CDS-Adapter
Pump	Self-priming, electric diaphragm pump with pressure switch; System flow rate up to 7l/min.
Gauged acc. to Weigths & Measures (MID)	Calibrated only version
Power supply	Leak-proof gel battery with electronic battery charger
Display for tank volume	Digital display for tank volume, delivery and total quantities; battery charge level display
Length hose	approx. 3 m
Delivery rate	3,5 l/min & 6,5 l/min
