Oil dispenser | 80 liters | with filler pipe | for loose filling

- **80 liter pressure tank**
- **operating pressure: up to 2bar**
- **compact and maneuverable**
- **quick dispensing**

Oil dispensers with 80 liter pressure tank, equipped with an a filler pipe for loose filling.

The delivery is made via a dispensing hose DN 16, 2.2 m long, with an axial swivel joint at max. 10 l/min. (relative to the viscosity and pressure).

The dispensers are equipped with a minimum level cutoff to prevent gas measurements.

Nozzles are available as discharge elements, as well as analog and digital manual flow meters in calibratable or non-calibratable versions.

The chassis consists of 2 castors D 160 and 2 swivel castors D 80 with brake.
